

**Division of Humanities  
Final Syllabus**

**Course Code:** HUMA 1030  
**Course Title:** Structure of the Chinese Language  
**Course Offered in:** Fall 2020  
**Course Instructor:** Dr. Dechao Li

**Course Description:** This course introduces basic concepts in linguistics such as consonant, vowel, tone, syllable, morpheme... concepts which help students to describe and analyze the structure of the Chinese language. Moreover, the phonology, morphology and syntax of Mandarin and Cantonese will be illustrated in detail for the students to have a thorough picture of different aspects of the structure of Chinese language. Furthermore, similarities and differences among major Chinese dialects such as Mandarin, Yue, Min, Hakka, Wu, etc. will be introduced. And a very brief illustration of language evolution across different Chinese dialects in history will be given at the end of the course.

**Course Intended Learning Outcomes (ILOs):**

	Course ILOs
1	Use the basic concepts to describe and analyze the structure of Chinese dialects
2	Articulate the differences among major Chinese dialects
3	Articulate the complexity of the linguistic situation in China

**Division of Humanities  
Final Syllabus**
